### DESCRIPTION

AB 2377 (Chapter 147, Statutes of 1994) authorized the State to implement the Medi-Cal Administrative Activities (MAA) claiming process. The Medi-Cal program will submit claims on behalf of local government agencies (LGA) to obtain FFP for Medicaid administrative activities.

Section 105 of AB 2780 (Chapter 310, Statutes of 1998), allows school districts the option of claiming MAA through their local education consortium (LEC) or through the LGA.

SB 308 (Chapter 253, Statutes of 2003) redefined LGAs to include Native American Indian tribes. This allows these tribes to participate in MAA and Targeted Case Management programs. With the augmentation of staff in July 2005, the Department has requested Federal approval to implement this program.

These activities ensure that assistance is provided to Medi-Cal eligible individuals and their families to facilitate the receipt of Medi-Cal services. Each year the number of participating LGAs and LECs has increased.

### DESCRIPTION

The Department will engage in two activities to increase the participation of children in Medi-Cal and the Healthy Families Program:

1. County Allocations: The Department will allocate funding to 20 counties (Level 1) with the greatest number of uninsured children and the highest Medi-Cal and Healthy Families caseload to partner with public and private community organizations for outreach, streamlining enrollment, retention of health coverage, and appropriate utilization of health care; and to 12 other counties (Level 2) that have established community networks and infrastructures. Below are the county allocations for FY 2006-07 through FY 2008-09 on an accrual basis:

	FY 2006-07	FY 2007-08	FY 2008-09	Total
Level 1	\$16,685,000	\$26,685,000	\$26,685,000	\$70,055,000
Level 2	\$2,810,000	\$3,000,000	\$3,000,000	\$8,810,000
FY Total	\$19,495,000	\$29,685,000	\$29,685,000	\$78,865,000

Counties will be submitting their invoices to the Department approximately 7 weeks after the end of each quarter. Payments are expected to begin in May 2007. Below are the costs the Department expects to pay on a cash basis for Medi-Cal and Healthy Families:

FY 2006-07: Medi-Cal: \$ 4,285,000 (\$2,142,500 GF); HFP\*: \$ 3,590,000 (\$1,256,500 GF)  
 FY 2007-08: Medi-Cal: \$19,152,000 (\$9,576,000 GF); HFP\*: \$14,923,000 (\$5,223,050 GF)

2. Toll-free Telephone Line: The Medi-Cal/HFP toll-free line will be augmented to handle the increased volume of calls generated by the county allocation activities.

FY 2006-07: Medi-Cal: \$250,000 (\$125,000 GF)  
 FY 2007-08: Medi-Cal: \$500,000 (\$250,000 GF)

### Total Outreach Expenditures:

	FY 2006-07	FY 2007-08

The Childhood Lead Poisoning Prevention (CLPP) Program provides case management services utilizing revenues collected from fees. The revenues are distributed to county governments which provide the case management services. Some of these services are provided to Medi-Cal eligibles. To the extent that local governments provide case management services to Medi-Cal eligibles, federal matching funds can be claimed.

This policy change reflects the Title XIX federal matching funds for Administrative costs. Benefits costs are in the Base Policy Change, CLPP Case Management Services.

Beginning July 1, 2007, the CLPP Program will be administered by the California Department of Public Health.

AB 1762, the Health Trailer Bill of 2003, authorized the Department to require contractors and grantees under the Office of Family Planning (OFP), Male Involvement Program (MIP) and Information and Education (I&E) Program to establish and implement clinical linkages to the Family PACT program effective in FY 2003-04. This linkage includes planning and development of a referral process for program participants to ensure access to family planning, other reproductive health care services, and includes a technical assistance and training and evaluation component for grantees. The MIP and I&E Programs expect to utilize approximately 25% of their funding for this purpose.

Title XIX funding for the Teen Smart Outreach Program which was formerly included in this policy change is now included in the FPACT Provider Support, Provider Educ. & Client Outreach policy change.

This policy change provides the Title XIX 50% federal Medicaid funds. The OFP provides the 50% General Fund match in Item 4260-111-0001 in FY 2006-07. Beginning July 1, 2007, OFP GF will be in the California Department of Public Health budget.

**DESCRIPTION**

The Management Information System/Decision Support System (MIS/DSS) gathers data from provider, financial, eligibility and managed care/fee-for-service encounters and claims data into an integrated, knowledge-based system that is used by staff in various CDHS units, including the Medi-Cal Managed Care Division in its monitoring of Health Plan performance and Audits and Investigations in its anti-fraud efforts.

The MIS/DSS contract with Medstat expired on January 17, 2007. The Department of General Services (DGS) conducted a competitive procurement, on behalf of CDHS, to award a new MIS/DSS contract. The contract award was protested and the Victims Compensation and Government Claims Board has ruled in the Department's favor. Medstat filed several actions related to this procurement in Superior Court which are currently pending. The Department is proceeding forward with the Bull Services implementation.

A new contract for development of the Next Generation MIS/DSS was executed with Bull Services, Inc. in February 2007. The new contract term is for four years, with three one-year extensions. The winning bid for the seven year contract was for \$79,613,600. Bull Services, Inc. has elected not to receive progress payments. As a result, no FY 2006-07 payments are scheduled for this contract. FY 2007-08 expenditures represent one-time and ongoing operations costs associated with system design, development, and implementation.

On December 19, 2006 CMS approved the Next Generation MIS/DSS Implementation Advanced planning Document, including the enhanced funding for this project at 90% FFP for new development and 75% FFP for all other system costs. Bulls Services, Inc. will have six months from February 2007 to design, develop and install a new system.

### DESCRIPTION

The Department entered into contracts for eligibility systems changes, Medicare Part D required data files, paid claims files, and phase-down validation necessary to implement Medicare Part D, as required by the Medicare Prescription Drug, Improvement, and Modernization Act of 2003. Medi-Cal processing needed to be modified to ensure proper identification, tracking, and reporting of the recipient population to be covered by Medicare Part D. Due to additional CMS requirement changes, the Department entered into additional contracts for enhanced documentation and procedures for MEDS and its subsystems.

System modifications continue to be made to several systems including the Medi-Cal Eligibility Data System (MEDS), Fiscal Intermediary Access to Medi-Cal Eligibility (FAME), claims and data files. CMS requires the State to submit a monthly file of dual eligibles for verification processing and a monthly file of beneficiaries who are likely to become Medicare eligible in the following two months. A new process was developed to capture Medicare Part D eligibility data from MEDS and create the verification file for CMS processing. CMS provides a return file with Part D eligibility and enrollment data.

The above system changes are estimated to cost \$4,040,000 (10% GF/90% FFP). The federal government has agreed to fund these costs at 90%. In FY 2005-06, \$1,332,000 was paid for these system changes. The remaining \$2,708,000 in costs are expected to be incurred during FY 2006-07 and FY 2007-08, with \$2,175,000 to be paid in FY 2006-07 and the remaining \$533,000 in FY 2007-08.

**DESCRIPTION**

The Los Angeles County Medicaid Demonstration Project was designed to address the fiscal crisis at the county level by helping to stabilize county health care systems, and to foster a unique restructuring process that is responsive to the needs of local communities within the evolving health care environment. This policy change provides federal funds for eligible county administrative activities specific to the waiver.

The waiver, which originally was approved for the period of July 1995 through June 2000, was extended by the federal government (Centers for Medicare and Medicaid Services (CMS)) for five years and expired on June 30, 2005. Since the Medi-Cal program is funded on a cash basis and Los Angeles County submits its quarterly administration expense claims after the end of the quarters, federal funds will be needed in FY 2006-07 and FY 2007-08 for expenses incurred by Los Angeles County in FY 2004-05 and FY 2005-06. There are additional costs for audits and evaluations that were required at the end of the project.

<b>FEDERAL FUNDS</b>	<b>\$1,434,000</b>	<b>\$1,434,000</b>

### DESCRIPTION

Terms and conditions of the Family PACT Medicaid Waiver Demonstration Project require an evaluation of program effectiveness. The University of California, San Francisco (UCSF) is conducting the program evaluation, which includes analyzing: changes in birth rates; access by target populations; changes in the provider base for target geographical areas; provider compliance; claims analysis; and cost-effectiveness of services.

This policy change provides the Title XIX 50% federal financial participation (FFP) for the evaluation. The Office of Family Planning provides the 50% General Fund (GF) match in Item 4260-111-0001 for the evaluation in FY 2006-07. Beginning in July 1, 2007, the budgeting of the GF will be in the Department of Public Health budget.

This policy change also includes the GF and FFP for a contract to provide data to UCSF for the evaluation. The cost of the contract is \$500,000 (\$250,000 GF) annually. Beginning July 1, 2007, the budgeting of the GF for this contract will be transferred from Medi-Cal local assistance, Item 4260-101-0001, to OFP local assistance, Item 4260-111-0001 in the Department of Public Health budget.

### DESCRIPTION

The Perinatal HIV Testing Project, administered by the Office of AIDS, develops and disseminates HIV educational materials for pregnant women. The Project also provides prenatal HIV testing information (educational material, technical assistance, training, etc.) to perinatal care providers and clinics, local health jurisdictions, health maintenance organizations, and other organizations that require assistance in preventing perinatal transmission. Technical assistance and training is offered only to prenatal providers who currently treat Medi-Cal patients.

This policy change provides the Title XIX 50% federal Medicaid funds. The Office of AIDS provides the General Fund match in Item 4260-111-0001 in FY 2006-07. Beginning July 1, 2007, the Perinatal HIV Testing Project GF will be in the California Department of Public Health budget.

**DESCRIPTION**

The MIS/DSS contract with Medstat expired on January 17, 2007. The new contractor, Bull Services, Inc., will have six months from contract award in February 2007 to design, develop and install a new system. This six month period is Phase I of system development. To ensure the availability of the critical data in the MIS/DSS database in the interim, the Department hired California Multiple Award Schedule (CMAS) contractors to provide limited access to MIS/DSS data and reports. The temporary updating of the existing database will be completed by CMAS contractors until the new MIS/DSS database is fully available. Interim operations are expected to stay in place till Phase II development is completed. Phase II completion is scheduled for February 2008. This interim operation will only provide status quo operations, and will not implement any of the improvements identified in the DOF-required Independent Assessment of the MIS/DSS (August 2004); nor will this interim operation provide training, Episode Grouping software, Help Desk, or analytical consulting functions.

The previous contractor, Medstat, protested the contract award to Bull Services. While the Victims Compensation and Government Claims Board has ruled in the Department's favor, Medstat filed several actions related to this procurement in Superior Court which are currently pending. The Department is proceeding forward with the Bull Services implementation. Contract implementation will continue unless the Superior Court orders the Department to stop implementation. If the Bull Services implementation is delayed or put on hold by the court, there is a possibility that the Department would have to extend the interim contract.

Mailings to notify beneficiaries who are not full-benefit dual eligibles to enroll prior to June 2006 have also been completed.

The Department distributed one flyer in FY 2006-07 to notify full-benefit dual eligibles that their Medicare Part D drugs may be covered by the Emergency Drug Benefit if all the appropriate steps have been taken to bill Medicare and Medicare does not pay.

The Department expects to distribute three flyers in FY 2007-08 to full-scope dual eligibles to notify them of CMS changes to Part D and the Low-Income Subsidy.

<b>STATE FUNDS</b>	\$0	\$0
<b>FEDERAL FUNDS</b>	\$1,260,000	\$1,260,000

### DESCRIPTION

Immunization services are required for Medi-Cal eligibles based on the Title XIX Early and Periodic Screening, Diagnosis, and Treatment (EPSDT) provisions. California Health and Safety Code Section 120440 governs the operation of immunization registries, secure databases of childhood vaccination records that allow medical providers to identify and vaccinate all under-immunized children, including those assisted by Medi-Cal and CHDP. CMS has determined that funds to operate immunization registries are eligible for a 50% match for Medi-Cal related activities under Title XIX, Section 1903(a) (7). Therefore, beginning in FY 2005-06, the Department has been claiming Title XIX FFP for the Medi-Cal related costs of operating an immunization registry.

### Assumptions:

1. The Department currently allocates \$3,500,000 in Local Assistance GF in the 4260-111 Item for the operation of the nine regional registries run by local health departments in FY 2006-07. Beginning July 1, 2007, the immunization registry GF will be in the California Department of Public Health budget. This policy change budgets only the matching Title XIX FFP for costs related to Medi-Cal beneficiaries.
2. 72% of children currently in the registry received their vaccinations from public providers. Nearly all of them are Medi-Cal eligible. Therefore, assume that 72% of the \$3,500,000 can be matched by FFP.

Costs eligible for FFP Match:  $\$3,500,000 \times 0.72 = \$2,520,000$   
 FFP to be budgeted:  $\$2,520,000 / 2 = \$1,260,000$  annually

**DESCRIPTION**

The Medicare Prescription Drug, Improvement, and Modernization Act of 2003 (MMA) required an annual independent certified audit that primarily certifies:

1. The extent to which DSH hospitals (approximately 150+ hospitals) have reduced their uncompensated care costs to reflect the total amount of claimed expenditures.
2. That DSH payment calculations of hospital-specific limits include all payments to DSH hospitals, including supplemental payments.

The audits will be funded with 50% FFP and 50% GF. The audit guideline is being developed by CMS. The Department reviewed the draft criteria and guidance provided by CMS in August 2005, provided comments to CMS in October 2005, and is waiting for the final criteria and guidelines from CMS. The first annual audit will be for FY 2003-04.

**Assumptions:**

1. The audit guideline will be finalized during FY 2006-07.
2. Each year, the Department will audit one fiscal year.
3. The FY 2003-04 audit will be completed and paid in FY 2007-08.
4. Each fiscal year audit will cost \$1,200,000 with 50% FFP and 50% GF.

### DESCRIPTION

The Budget Act of 2006 includes funding to target barriers to enrollment of seniors and persons with disabilities (SPDs) into managed care. The budget includes funding for the Department to enter into an interagency agreement for education and outreach activities to increase the voluntary enrollment of Medi-Cal SPDs in all managed care counties.

Focused resources, a variety of information in alternative and more effective formats, and an increase in application assistors, with an emphasis on outreach efforts within the community, are expected to increase awareness and voluntary enrollments into managed care.

These activities will be performed through an IA with UC Berkeley using both state support and local assistance funds. The total cost of the local assistance portion of the interagency agreement is estimated to be \$2,200,000 (\$1,100,000 GF), to be paid over the course of FY 2006-07 through FY 2009-10 as follows:

### DESCRIPTION

The Family PACT Medicaid Waiver Demonstration Project has two main objectives. One is to increase access to services in targeted populations of adolescents, males, and medically underserved women. The other is to increase the number of providers who serve these clients. A formal plan for provider recruitment, education, and support is a requirement under the terms and conditions of the waiver. CDHS education and support services are provided to the Family PACT providers and potential providers, as well as clients and potential clients. Services include, but are not limited to: public education, awareness, and direct client outreach (TeenSmart Outreach (TSO)); provider enrollment, recruitment and training; training and technical assistance for medical and non-medical staff; education and counseling services; preventive clinical services; sexually transmitted infection/HIV training and technical assistance services; and the toll-free referral number. The Office of Family Planning (OFP) contracts with a variety of entities to provide these services.

The TSO program which was formerly included in the Family Pact MIP and I&E Programs policy change is now included in this policy change.

\$2,268,000 federal Title XIX will be claimed for these activities. This policy change provides the Title XIX 50% federal Medicaid funds. The OFP provides the 50% General Fund match in Item 4260-111-0001 in FY 2006-07. Beginning July 1, 2007, OFP GF will be in the California Department of Public Health budget.

- A percentage comparison of Medi-Cal rates to those of Medicare. Dental, pharmacy, federally qualified health centers, rural health clinics and health facilities services are excluded from this comparison.
- The estimated cost to raise Medi-Cal rates to at least 50% of Medicare rates. The estimate is to include the cost to keep managed care rates comparable.
- For those procedures/services covered only by Medi-Cal, a priority list of procedures/services that may merit adjustment. The estimate is to include the cost to keep managed care rates comparable.

### DESCRIPTION

The Centers for Medicare and Medicaid Services (CMS) is requiring the Department to create a framework and technical specifications for the Medicaid Management Information Systems (MMIS) of the future. Through the Medicaid Information Technology Architecture (MITA), the Department will develop the ability to streamline the process to access information from various systems, which will result in cost effectiveness. CMS is requiring the Department to move towards creating flexible systems, which support interactions between the federal government and their state partners. CMS will not approve Advanced Planning Documents (APD) or provide federal funding to the Department without adherence to MITA requirements.

The Department is required to complete the MITA State Self-Assessment (SS-A) of business processes to determine the current and long-term business requirements. The Department will hire a contractor in April 2007, who will use the MITA Maturity Model as they document current business process, workflow, operational procedures, cross-functional integrations, and performance measurement, and extract document business rules from the Department's current legacy systems.

The SS-A is the first of a three-phased transition plan that CMS expects the Department to use to guide their MITA implementation. Each phase may be completed by a different contractor. The second phase, State Medicaid Enterprise Architecture (EA) development will begin in December 2007. The EA phase will be out for bid in the Fall of 2007. The third phase will not be scheduled until completion of the SS-A phase.

FEDERAL FUNDS	\$142,500	\$400,000

**DESCRIPTION**

SB 437 (Chapter 328, Statutes of 2006) requires the Department to implement a process that allows applicants and beneficiaries to self-certify the amount and nature of assets and income without the need to submit income and asset documentation. The self-certification process must be implemented on July 1, 2007 in two phases. The first phase is a two-year pilot in two counties. Following this first phase, the Department is required to provide the Legislature with an evaluation of the self-certification process and its impact on the Medi-Cal program. Following submission to the Legislature, the Director, in consultation with the DOF, shall determine whether to implement the self-certification process on a statewide basis, based on the outcome of the evaluation, contingent on an appropriation of funds in the Budget Act or subsequent legislation.

The Department will enter into a contract for the evaluation of the self-certification process. To ensure that the evaluation contractor is prepared with an evaluation plan by July 2007, this contractor will begin work in May 2007. The contractor will research, monitor, provide statistical findings about the outcomes resulting from self-certification, and prepare the report on the evaluation findings. The contractor, under direction of the Department, will develop the evaluation plan, monitor county performance during the two-year pilot based on the plan, and prepare an evaluation of the pilot. The contractor will assess the income and asset review process prior to the implementation for the pilot, measure changes during the pilot resulting from self-certification, and then prepare an evaluation of the impact of the self-certification at the end of the pilot. The evaluation report must evaluate the impacts on the Medi-Cal program, including its impact on enrolling and retaining eligible persons, simplifying the Medi-Cal program, assuring program and fiscal integrity, administrative costs, and its overall cost-benefit to the state.

Total costs for the contract are expected to be \$2,300,000 over 32 months. The FY 2006-07 and FY 2007-08 costs are estimated to be:

AB 359 (Chapter 845, Statutes of 1999) requires the Department to establish a Section 1915 (b) waiver pilot program to provide continuous 24-hour nursing care to developmentally disabled individuals in the least restrictive setting. In July 2005, as part of the waiver renewal package, the Department submitted to CMS an independent assessment performed by the California Department of Finance. CMS subsequently approved the waiver renewal, effective October 1, 2005 through September 30, 2007.

The Department is budgeting \$125,000 (\$62,500 GF) in FY 2006-07 and FY 2007-08 for a final independent assessment to determine the feasibility and cost effectiveness of establishing the Intermediate Care Facility for the Developmentally Disabled-Continuous Nursing as a permanent new provider type.

### DESCRIPTION

SB 437 (Chapter 328, Statutes of 2006) requires the Department and the Managed Risk Medical Insurance Board (MRMIB) to make several program changes to streamline, simplify and enhance the application process for Medi-Cal and the Healthy Families Program (HFP). The provisions of the bill that require systems changes involve the Women, Infants and Children (WIC) Gateway, and two new Presumptive Eligibility (PE) programs to replace the current Medi-Cal to HFP Bridging process and the HFP Accelerated Enrollment Process (under development). The two new PE programs will be implemented with an internal feasibility study report (FSR).

This policy change includes funding for an FSR for the WIC Gateway of technological requirements to determine the amount and types of systems resources needed for this project, and for two contract staff to provide data processing guidance to stakeholders, Department and MRMIB staff, the counties, and others involved in developing policies and procedures for the implementation of the WIC Gateway, in preparation for the development of the FSR. The SB 437 FSRs include developing and implementing the WIC Gateway and integrating the PE Programs with the WIC Gateway.

### Assumptions:

1. It is estimated that the FSR will take nine months to complete.
2. Funding is assumed to be 50% GF / 50% FFP.
3. Assume a one-time cost of \$200,000 (\$100,000 GF) for a contractor to prepare the FSR.

$\$200,000 / 9 = \$22,222$  per month

FY 2006-07:  $\$22,222 \times 3$  months = \$67,000 (\$33,500 GF)

FY 2007-08:  $\$22,222 \times 6$  months = \$133,000 (\$66,500 GF)

4. Assume a one-time cost of \$427,680 (\$213,840 GF) for 2 contract staff to provide support to efforts such as stakeholder meetings, policy discussions, development of business requirements, and technical expertise. The contract staff will be needed for nine months.

$176 \text{ hours/month} \times \$135/\text{hour} \times 9 \text{ months} \times 2 \text{ contract staff} = \$427,680$  (\$213,840 GF)

$\$427,680 / 9 = \$47,520$  per month

FY 2006-07:  $\$47,520 \times 3$  months = \$143,000 ( \$71,500 GF)

FY 2007-08:  $\$47,520 \times 6$  months = \$285,000 (\$142,500 GF)

FEDERAL FUNDS	\$97,500	\$97,500

### DESCRIPTION

AB 1948 (Chapter 332, Statutes of 2006) requires the Department to conduct or contract for a feasibility study report (FSR) of technological requirements for modifying the CHDP Gateway electronic application to allow simultaneous preenrollment and application for Medi-Cal or the Healthy Families Program over the Internet, without submitting a follow-up paper application. The Department is required to consult with representatives of consumers, counties and medical providers in the development of policies and procedures prior to development of the FSR. The results of the FSR are to be provided to the fiscal and health policy committees of the Legislature by March 1, 2008.

#### Assumptions:

1. It is estimated that the FSR will take six months to complete.
2. Funding is assumed to be 50% GF / 50% FFP.
3. Assume a one-time cost of \$200,000 (\$100,000 GF) for a contractor to prepare the FSR.

$\$200,000 / 6 = \$33,333$  per month

FY 2006-07:  $\$33,333 \times 3$  months = \$100,000 (\$50,000 GF)

FY 2007-08:  $\$33,333 \times 3$  months = \$100,000 (\$50,000 GF)

4. Assume a one-time cost of \$190,000 (\$95,500 GF) for two contract staff to provide support to efforts such as policy discussions, requirements, and technical expertise. The contract staff will be needed for six months.

$176 \text{ hours/month} \times \$90/\text{hour} \times 6 \text{ months} \times 2 \text{ contract staff} = \$190,000$  (\$95,500 GF)

$\$190,080 / 6 = \$31,680$  per month

FY 2006-07:  $\$31,680 \times 3$  months = \$95,000 (\$47,500 GF)

FY 2007-08:  $\$31,680 \times 3$  months = \$95,000 (\$47,500 GF)

#### Total costs:

**FY 2006-07:**  $\$100,000 + \$95,000 = \$195,000$  (\$97,500 GF)

**FY 2007-08:**  $\$100,000 + \$95,000 = \$195,000$  (\$97,500 GF)

**DESCRIPTION**

The contract with Medstat expired on January 17, 2007. The Department of General Services (DGS), on behalf of CDHS conducted a competitively bid procurement for a new, competitively bid contract to transfer, enhance, operate and maintain the MIS/DSS. The new Next Generation MIS/DSS contract was executed with Bull Services, Inc. in February 2007. The contract execution closes out the procurement effort; however, as required by the Department of Finance's (DOF) Oversight Framework for this high criticality project, the Independent Procurement Oversight Consultant (IPOC) and the Independent Verification and Validation (IV&V) contractor will remain throughout the project implementation phases to provide oversight of the project management and system implementation processes.

On December 19, 2006, CMS approved the Next Generation MIS/DSS Implementation Advanced Planning Document (IAPD), including enhanced funding for this project at 90% FFP for the IV&V contract and 75% FFP for the IPOC. On January 10, 2007, DOF approved the Next Generation MIS/DSS IAPD in lieu of Special Project Report.

### DESCRIPTION

The Department will enter into a contract with Epocrates to place Medi-Cal's Contract Drug List (CDL) and up to 3 other departmental "formularies", for example, Family PACT or AIDS Drug Assistance Program (ADAP), in the Epocrates system for access by subscribers.

Epocrates Rx™ contains important drug list and clinical information for commercial health plans and Medicaid programs throughout the country. More than 20 commercial health plans (including all of the County Organized Health System plans) in California, plus all of the Medicare Part D formularies are available through Epocrates Rx™. It includes over 3,300 monographs with adult and pediatric dosing, drug interactions, contraindications and cautions, and adverse reactions, as well as regional prescription drug list / formulary / information for over 100 health organizations representing 30 million beneficiaries.

Due to the number of inquiries from provider networks, health plans that service Medi-Cal beneficiaries, the California Medical Association (CMA) and the California Healthcare Foundation as to the possibility of making the Medi-Cal Contract Drug List (CDL) available via Epocrates, Medi-Cal met with Epocrates to review product offering, value proposition, and logistics to support the deployment of the Medi-Cal CDL and communication with providers in California.

Epocrates provides the Department with an opportunity to reach a large network of health professionals via a unique point-of-care clinical reference solution for physicians and other health professionals accessible on both handheld devices and Internet based desktop computers. Epocrates supports the CMA in their awareness of the formularies and will assist the Department in announcing and educating health professionals on drug coverage issues.

Providing the Medi-Cal CDL through Epocrates is estimated to cost \$158,000 TF annually. The contract began in April 2007 and the estimated cost for FY 2006-07 is \$40,000. The information is maintained directly by departmental staff through a password secured Internet webpage.

### DESCRIPTION

The Budget Act of 2006 provided authority and funding for staff for the Department to establish and implement a Coordinated Care Management (CCM) Demonstration Project. The key elements of the CCM Project include maintaining access to medically necessary and appropriate services, improving outcomes, and providing care in a more cost-effective manner for two populations enrolled in the Fee for Service Medi-Cal Program who are not on Medicare:

- Seniors and persons with disabilities who have chronic conditions, or who may be seriously ill and near the end of life; and
- Persons with chronic health condition(s) and serious mental illnesses.

The Department will enter into one or more contracts to implement the CCM Demonstration Project. CCM is scheduled to begin implementation January 2008 and payments for services are expected to begin in March 2008.

### DESCRIPTION

To increase drug rebate collections for the seven County Organized Health System (COHS) counties (Health Plan of San Mateo is excluded), the Department will reconcile the counties' Paid Claims files with drug records obtained from the Pharmacy Benefits Manager (PBM) contractors who adjudicate the drug claims for COHS. This reconciliation will improve the COHS' drug data and, thereby, improve the Department's COHS drug rebate collections.

The Department has entered into contracts to analyze edit reports, research cause and correction for critical data errors, develop corrective action plans, track error rates, and monitor improvement efforts. The Department will request permanent State staff positions for FY 2008-09 for the COHS reconciliation.

This effort is considered Maintenance and Operation (M&O) for systems that are required for interfaces with each of the seven existing COHS counties. These systems were last updated via the Managed Care Initiative Project, Project # 1500-122, approved by the Department of Finance on September 7, 1993. Phase III of the project completed in 1994 addressed County Health Initiative (HI) plans now known as COHS. Feasibility Study Report (FSR) requirements are met for M&O and enhancements for approved systems when costs are less than 10% of the original approved project.

These expenditures are expected to be \$137,000 for FY 2006-07 and \$332,000 for FY 2007-08 and qualify for 75% FFP. Increased rebates due to these system improvements are estimated to be \$7.7 million TF annually and will start January 2008 with the collection of CY 2007's Quarter 3 rebate invoices, for an estimated \$3.85 million to be collected in FY 2007-08. These increased rebates have been incorporated into the Federal Rebate Program and State Supplemental Program Policy Changes.

### DESCRIPTION

Beginning January 1, 2006, Medi-Cal beneficiaries who are newly entitled to the Medicare Part D prescription drug benefit are notified of the reduction in their Medi-Cal benefits. Medi-Cal expects to pay for prescription drugs until the individual has received a 10-day Notice of Action (NOA.) Due to a lag in the Medicare eligibility determination, it can take up to two months for the dual eligible to be identified and a notice sent.

The Department has a system-generated NOA that was completed by the July 2006 mailing.

### Assumptions

1. Based on data from April 2006 through January 2007 mailings, the average monthly number of NOAs sent will be 16,578.
2. The average cost per NOA is \$4.98.

### DESCRIPTION

W & I Code Section 14132.27 requires the Department to apply for a federal waiver to test the efficacy of providing a disease management benefit to fee-for-service Medi-Cal beneficiaries. Due to the concerns expressed during the development of the program, the Department opted to base the pilot on the administrative model, as opposed to a model that requires a waiver. The effectiveness of this benefit includes demonstration of the cost neutrality of the program. To achieve this goal, the Department has entered into a contract with McKesson Health Solutions on February 1, 2007. This contract will cover the following conditions: Advanced Atherosclerotic Disease Syndrome, Asthma, Coronary Artery Disease, Diabetes and Chronic Obstructive Pulmonary Disease (DM1). A second contract will focus on HIV/AIDS separately (DM2) and is expected to be awarded in June 2007.

#### Assumptions:

1. The DM contract (DM1) for Advanced Atherosclerotic Disease Syndrome, Asthma, Coronary Artery Disease, Diabetes and Chronic Obstructive Pulmonary Disease was awarded in February 2007. Payments are expected to begin July 1, 2007.
2. Payments for HIV/AIDS (DM2) beneficiary services are expected to begin October 1, 2007.
3. Each contract is capped at \$4,000,000 per year for 3 years of beneficiary services (total of \$12,000,000 per contract).
4. The assessment is capped at \$1,500,000 over the life of project.
5. The assessment start-up costs will begin in March 2007 for the evaluation of both pilots.

FEDERAL FUNDS	\$2,202,000	\$2,472,000

### DESCRIPTION

The California Department of Health Services (CDHS) and Managed Risk Medical Insurance Board (MRMIB) use a joint Medi-Cal and Healthy Families Program (HFP) mail-in application for health coverage. Completed applications are sent to MAXIMUS which, by contract with MRMIB, is the Single Point of Entry (SPE), to screen the applications and send them to county welfare departments (CWDs) for Medi-Cal, or to MRMIB for HFP. MRMIB carries the General Fund cost in its budget. CDHS carries the Title XIX federal funds for the Medi-Cal applications, which MRMIB is reimbursed through an Interagency Agreement with CDHS.

This policy change includes CHDP Gateway application processing. To help ensure that all children have access to medical care, the Child Health & Disability Prevention (CHDP) Gateway program was implemented July 1, 2003. Through this program, children who receive a CHDP screen are pre-enrolled (PE) in Medi-Cal or HFP. Each PE child's family that indicates a desire for ongoing Medi-Cal/HFP coverage is sent an application. The application is returned to the SPE, then forwarded to the CWD or MRMIB for final eligibility determination.

New data elements on the revised joint Medi-Cal/HFP application will require systems enhancements at the SPE. The additional cost for systems enhancements will be a one-time development cost in FY 2006-07. CDHS will pay for the federal Title XIX share of this cost via an interagency agreement with MRMIB.

### Assumptions:

1. This estimate is based on actual usage of the Medi-Cal/HFP application; and actual processing, postage, and vendor contract rates and services.
2. MRMIB estimates the number of applications forwarded to CWDs for Medi-Cal only processing, and the federal funding of ongoing SPE costs for those applications.
3. Telephone and pre-printed application costs are based on the average actual ratio of Medi-Cal to HFP applications in SPE Report #MM-029 as of February 7, 2007 (35% to 65%).
4. MRMIB estimates the one-time development cost for systems enhancements, and the federal funding for this cost.
5. MRMIB estimates an additional 24,739 children discontinued from HFP will be pre-enrolled in Medi-Cal and have their applications forwarded to CWDs due to the elimination of HFP to Medi-Cal Bridge effective July 1, 2007.

STATE FUNDS	\$650,000	\$650,000
FEDERAL FUNDS	\$1,317,000	\$1,846,000

### DESCRIPTION

The Budget Act of 1997 established funding for children's outreach. Activities include advertising, community and school-based outreach, application assistance, materials, toll-free line, etc.

The Budget Act of 2003 limited outreach funding to a toll-free line. MAXIMUS, a contract vendor for MRMIB, began carrying out the toll-free line activity starting in January 2004.

The Budget Act of 2005 included funding for the reinstatement of certified application assistance (CAA) fees. Effective July 1, 2005, the Interagency Agreement with MRMIB has been amended to include the Title XIX federal financial participation (FFP) for Medi-Cal costs for CAA fees for children placed on Medi-Cal accelerated enrollment, and for the Medi-Cal related costs of processing the application assistance payments. The General Fund (GF) is budgeted by MRMIB.

#### Assumptions:

1. For the toll-free line, CDHS budgets both Title XIX FFP and GF.

FY 2006-07: \$1,300,000 (\$650,000 GF)

FY 2007-08: \$1,300,000 (\$650,000 GF)

2. MRMIB budgets the GF for the CAA fees and processing costs for Medi-Cal applications. Only Title XIX FFP is reflected in the Medi-Cal budget.
3. CAA fees are \$50 for Medi-Cal applications; and \$50 plus a \$10 premium for Health-e-Applications (HeA). The additional HeA assistance began July 1, 2006. Based on estimates provided by MRMIB, costs are expected to be:

FY 2006-07: 1,402 average mail-in apps/month x \$50 x 12 months = \$841,200 (\$420,600 FFP)  
 684 average HeA/month x \$60 x 12 months = \$492,480 (\$246,240 FFP)

FY 2007-08: 2,545 average mail-in apps/month x \$50 x 12 months = \$1,527,000 (\$763,500 FFP)  
 1,201 average HeA/month x \$60 x 12 months = \$864,720 (\$432,360 FFP)

### DESCRIPTION

Beginning in November 2001, Title XIX federal financial participation will be claimed for the "Welcome Kits" distributed to parents of Medi-Cal eligible newborns by the California Children and Families Commission (CCFC) (Proposition 10).

The California Department of Health Services has an Interagency Agreement with CCFC to provide federal matching funds. The contract number is 03-76097.

#### Assumptions:

1. CCFC will distribute 425,000 kits for FY 2006-07 and FY 2007-08.
2. The kit costs \$19.50 as of July 1, 2006. Each kit contains six DVD's, a book, and a guide.
3. As of July 1, 2007 the kit will cost \$21.50. The new kit contains six DVD's, several books, pamphlets, and a guide.
4. Approximately 46% of the kits are expected to be distributed to Medi-Cal eligible newborns.

### DESCRIPTION

The California Department of Health Services has an interagency agreement which provides federal matching funds to the California Department of Veterans Affairs (CDVA), subsequently to be distributed to County Veteran Services Offices (CVSO), for identifying veterans with VA benefits. This is a process of avoiding costs for the Medi-Cal program by identifying available VA benefits and referring the veterans to utilize those benefits instead of Medi-Cal.

Payments through the interagency agreement will be for the federal funds. Starting in FY 2004-05, billings and payments occur quarterly.

The actual contract amount for FY 2006-07 is \$956,000 and the estimated contract amount for FY 2007-08 is \$956,000.

### DESCRIPTION

Federal regulations require that any government agency that receives federal funds have a civil service exam, classification, and pay process. Many counties do not have a civil service system, so the State established Merit System Services, under the State Personnel Board, to perform as a personnel board for the 30 counties that do not have one. In addition, the Board reviews the merit systems in the other 28 counties to ensure that they meet federal civil service requirements.

The State Personnel Board is reimbursed by the Department via a contract/interagency agreement for Merit System Services. The terms of the contract are that it continues indefinitely, until terminated, or until there is a change in scope of work affecting the cost.

Health-e App is an electronic, web-based alternative to the traditional paper Medi-Cal/HFP joint application available to enrollment entities in all California counties. MRMIB plans to make system changes to enable the general public to also use the Health-e App. The system changes involve a one-time development cost in FY 2007-08.

CDHS will pay for the federal Title XIX share of this cost via an interagency agreement with MRMIB. MRMIB will budget the federal Title XXI share of the cost. The California Health Care Foundation (CHCF) will grant the matching funds for the federal Title XIX and Title XXI funding.

### DESCRIPTION

SB 437 (Chapter 328, Statutes of 2006) requires the Department and the Managed Risk Medical Insurance Board (MRMIB) to make several program changes to streamline, simplify and enhance the application process for Medi-Cal and the Healthy Families Program. Among other changes, SB 437 requires that a system be developed so that children applying for the Women, Infants, and Children (WIC) program can submit a simple electronic application to simultaneously obtain presumptive eligibility for the Medi-Cal and Healthy Families programs.

The WIC program will require three staff positions to implement SB 437. Title XIX federal Medicaid matching funds are available for the positions. However, as the WIC program will be in a separate state department, California Department of Public Health (CDPH), from the Medi-Cal program beginning in July 2007, as interagency agreement between the two departments will be required to allow for the provision of federal funds as a reimbursement. The matching GF will be budgeted in the WIC program in the CDPH.

### Assumptions:

1. The three positions (one Associate Governmental Program Analyst and two Staff Information Systems Analysts) will cost approximately \$344,000 annually. The federal share will be \$172,000 annually.
2. The positions will begin in July 2007.

### DESCRIPTION

The current Fiscal Intermediary (FI) contract with Electronic Data Systems expires June 30, 2010. The next contract will run from July 1, 2010 to July 1, 2015. The California Department of Health Services has requested 24 3-year limited term positions beginning July 1, 2007: 22 for the Department of Health Care Services (DHCS) and two for the Maternal Child Adolescent Health/Office of Family Planning in the California Department of Public Health (CDPH). These positions are to comprise the core team to verify and document the business and policy rules contained within California Medicaid Management Information System (CA-MMIS). This is a first step in an effort to renegotiate the Medi-Cal FI contract, which will include the replacement of CA-MMIS.

Title XIX federal Medicaid matching funds are available for the Maternal Child Adolescent Health/Office of Family Planning positions, as well as the others. Since this program will be in a separate state department, CDPH, from the Medi-Cal program beginning in July 2007, an interagency agreement between the two departments will be required to allow for the provision of federal funds as a reimbursement. The matching General Fund will be budgeted in the Maternal Child Adolescent Health/Office of Family Planning program by CDPH.

### Assumptions:

1. The two 3-year limited term positions (one Associate Governmental Program Analyst and one Health Program Specialist I) will cost \$196,000 in FY 2007-08 and \$192,000 in FY 2008-09 and FY 2009-10. The federal share will be \$147,000 in FY 2007-08 and \$144,000 in FY 2008-09 and FY 2009-10.

### DESCRIPTION

The Department has requested four limited term (18-month) full-time positions to perform and support the new workload associated with the implementation of AB 2968 (Chapter 830, Statutes of 2006). AB 2968 requires the Department to develop and implement a program to provide a community-living support benefit to Medi-Cal beneficiaries residing in the City and County of San Francisco who would otherwise be homeless, living in shelters, or institutionalized. One of the positions is needed for Licensing and Certification.

Title XIX federal Medicaid matching funds are available for these positions. Since Licensing and Certification will be in a separate state department, the California Department of Public Health (CDPH), from the Medi-Cal program beginning in July 2007, an interagency agreement between the two departments will be required to allow for the provision of federal funds as a reimbursement. The matching special fund will be budgeted in Licensing and Certification by the CDPH.

### Assumptions:

1. The one 18-month limited term position (Health Facilities Evaluator Nurse) will cost \$115,000 in FY 2007-08 and \$65,000 in FY 2008-09. The federal share will be \$58,000 in FY 2007-08 and \$33,000 in FY 2008-09.

SB 1755 authorizes the Department to make significant reforms to the Adult Day Health Care (ADHC) program under Medi-Cal. One of these positions is needed for Licensing and Certification.

Title XIX federal Medicaid matching funds are available for these positions. Since Licensing and Certification will be in a separate state department, the California Department of Public Health (CDPH), from the Medi-Cal program beginning in July 2007, an interagency agreement between the two departments will be required to allow for the provision of federal funds as a reimbursement. FEDERAL FUNDS	\$0	\$49,000	

### DESCRIPTION

The Department has requested the extension of the terms of four limited term ICF/DD-CN positions for an additional two-years, with one of the positions needed for Licensing and Certification.

Title XIX federal Medicaid matching funds are available for these positions. Since Licensing and Certification will be in a separate state department, the California Department of Public Health (CDPH), from the Medi-Cal program beginning in July 2007, an interagency agreement between the two departments will be required to allow for the provision of federal funds as a reimbursement. The matching special fund will be budgeted in Licensing and Certification by CDPH.

#### Assumptions:

1. The one 2-year limited term position (Health Facilities Evaluator Nurse) will cost \$69,000 in FY 2007-08, \$117,000 in FY 2008-09 and \$69,000 in FY 2009-10. The federal share will be \$49,000 in FY 2007-08, \$82,000 in FY 2008-09 and \$49,000 in FY 2009-10.
2. The funding will begin in January 2008.

FEDERAL FUNDS	\$323,000	\$319,500

### DESCRIPTION

Prison Industries Authority (PIA) fabricates the eyeglasses for Medi-Cal beneficiaries. Since July 2003, the Department has had an Interagency Agreement (IA) with PIA to reimburse them for one-half of the costs of the courier service that delivers orders between the optical providers and PIA. The two-way courier service ensures that beneficiaries have continued access to and no disruption of optical services. PIA began billing the Department for past fiscal year services in FY 2006-07. For FY 2006-07, the Department will be paying for services for FY 2004-05, FY 2005-06, and FY 2006-07. On an ongoing basis, payments are expected to be paid at the end of each quarter. The last quarter of each fiscal year will be paid the following fiscal year. The current IA, which expired January 2007, has been extended to April 2007. A new IA with DHL shipping company became effective January 1, 2007. A 4-month overlap is needed for a seamless transition from the old courier to DHL shipping company.

### Assumptions:

1. An estimated 260,000 packages will be shipped between Medi-Cal optical providers and PIA for FY 2006-07 and 2007-08.
2. The Department's cost of shipping each package is \$1.25 in FY 2006-07, and \$2.86 beginning in FY 2007-08 under the new IA with DHL. The increased cost of shipping is due to changes in fuel costs.

FY 2006-07: 260,000 x \$1.25 = \$325,000  
 FY 2007-08: 260,000 x \$2.86 = \$744,000

### DESCRIPTION

MEDS is the eligibility system used for tracking and maintaining eligibility for the various programs within Medi-Cal. This system has changed considerably over the past 30 years to incorporate new business and legislative requirements and, as a result, MEDS is extremely complex, difficult to maintain, and nearing the end of its useful life cycle. MEDS is a mission critical system that must assure timely and accurate eligibility information for Medi-Cal beneficiaries. Given the business critical nature of MEDS, a detailed assessment was completed by a specialty vendor that recommends modernization of MEDS.

The Department will now contract with a vendor to help analyze the existing functionality of the system and help develop detailed business requirements to provide necessary information for RFP and FSR development. The contract is expected to be for 24 months, beginning July 1, 2007.

### DESCRIPTION

Under the Special Terms and Conditions of the Medi-Cal Hospital/Uninsured Care Demonstration, \$180 million per Demonstration Year 3 – 5 is available for implementing the Health Care Coverage Initiative. SB 1448 requires that these funds be used for only health care services provided through the approved health care coverage programs.

In addition, selected applicants will receive 50% federal reimbursement for their administrative costs associated with the implementation and ongoing administration of their approved health care coverage programs. The Department has submitted the proposed "Health Care Coverage Initiative Administrative Cost Claiming Protocol" to CMS for approval of the administrative cost categories and claiming methodology for administrative costs related to the health care coverage programs.

### DESCRIPTION

SB 162 (Chapter 241, Statutes of 2006) required the reorganization of the Department into two departments, the Department of Health Care Services (DHCS) and the California Department of Public Health (CDPH). This policy change includes the Title XIX federal funding for the CDPH administrative costs related to services provided to Medi-Cal beneficiaries. Because the CDPH will be a separate state department from the Medi-Cal program beginning in July 2007, an interagency agreement between the two departments will be required to allow for the provision of federal funds as a reimbursement to the CDPH. The non-federal matching funds will be budgeted by the CDPH.
